

## STORY DOC TEMPLATE:

### Preamble

Open with a paragraph or two that encapsulates the series (the premise, the tone, the themes). This section serves as a reminder to the network of the show they bought and why we're all so very excited to be doing this pilot.

### Character breakdown

A brief description of our main characters – who they are and what drives them. Describe their dynamic with other characters. Tell us what their story arc and emotional arc will be over the course of the pilot and/or series.

### Pilot story

Lay out the pilot story (with a clearly defined beginning middle and end), touching on major plot points or twists and turns. Clearly identify the A story, B story, C story, etc. This should be about 1-2 pages long.

### Optional wrap up

This is the place to add any other pertinent details or series teasers you deem necessary.
